the 1990s, the number of people with a diagnosis of schizophrenia has increased by 50% (Meltzer 1995).

There is a growing awareness of the need to address the needs of people with mental health problems, and the importance of the role of the community in this. The World Health Organization (WHO) has developed a number of initiatives to address the needs of people with mental health problems, and the importance of the role of the community in this. The WHO has developed a number of initiatives to address the needs of people with mental health problems, and the importance of the role of the community in this.
